Certified Hi-Res Audio with coaxial triple drivers, LDAC

- Upgraded coaxial triple drivers design, featuring an 11mm bass driver with titanium diaphragm and two 6.7mm piezoelectric ceramic tweeters, to achieve a more powerful bass and delicate treble
- Certified by Hi-Res Audio Wireless and supports LDAC high quality audio codec

55dB/5kHz more smarter Hybrid Active Noise Cancellation

- Smart noise reduction for delicate silence
- 55dB Active Noise Cancellation with 20-level adjustable depths
- 5kHz ultra-wide frequency noise cancellation
- Average ANC noise reduction depth is 28.3dB, a 19.92% increase compared to the previous generation

3 MIC AI clear call with 12m/s anti wind noise

- Providing Standard, Music, Video, Ebook and Game mode, delivering a captivating audio experience every time

Convenient connection experience

- Support for Google Fast Pair
- Support for Xiaomi Earbuds App
- Support dual-device connection

Dolby Audio for a more lifelike experience

- Add dimensionality and clarity to your audio experience for entertainment like movies, videos, and games. Instead of experiencing sound directly inside the ears, you'll feel sound as if it's outside your head, making listening on earbuds more lifelike so that you can listen longer. Not only that, Dolby technology delivers dialogue with crisp clarity making it more vivid and true to life.
