ERASABLE PENS

THE NEXT EVOLUTION OF THE ERASABLE PEN!

We moved the character.

CLIMBY, the **erasable pen** with personality.

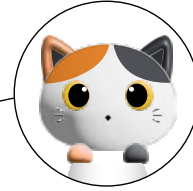

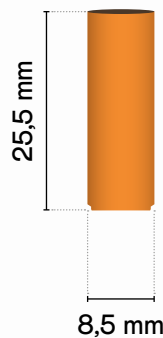

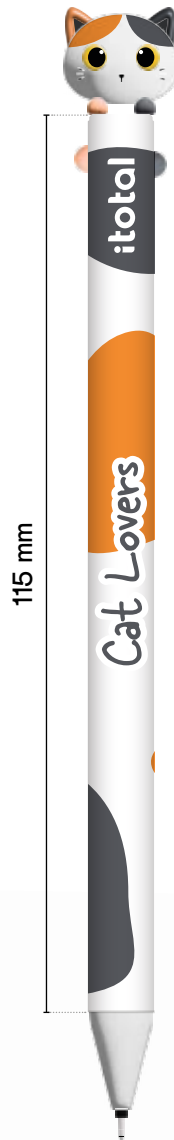

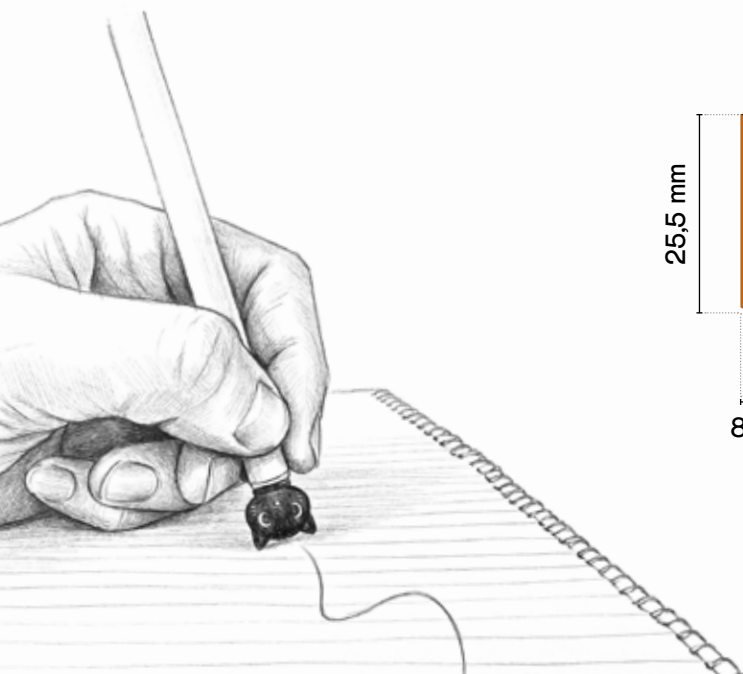

A collectible erasable pen where **the character stays with you** while writing

Our character pens have always been loved for their playful design.

Now we take the idea **one step further.**

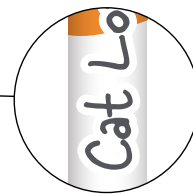

We moved the character from the cap to the top of the pen, so it stays visible even while writing.

Discover the collection, discover all the universes, collect them all.
