# HEART RATE MONITOR

## PRECISE DATA. PURE COMFORT.

Compatible with any Bluetooth product that accepts Heart Rate data.

### DESIGNED FOR ACCURACY

Our latest generation optical heart rate sensor provides you with a new level of accuracy, comparable to that of a chest strap. For cycling, running, climbing, HIIT workouts, and more, the COROS Heart Rate Monitor will help you overcome the limitations of wrist-based heart rate, guaranteeing accurate data during any activity for over 38 hours.

### WHY THE ARM?

Placing a heart rate sensor on the arm ensures optimal blood flow beneath the sensor, giving you confidence in the data you're seeing. While wrist-based heart rate sensors are convenient, they typically have limitations that make accuracy a challenge, no matter the brand or product.

### LASTING COMFORT

While chest monitors may provide accuracy, they typically are uncomfortable to wear. The soft fabric band of the COROS Heart Rate Monitor securely and comfortably wraps around the arm, with a low-profile design that prevents snagging. The adjustable buckle allows for a perfect fit, and the strong Velcro enclosure enables easy removal for washing.

### NO BUTTONS. NO FUSS.

The COROS Heart Rate monitor features automatic wear detection, powering on and off based on when it's worn. It connects to multiple Bluetooth devices simultaneously, including non-COROS watches and other Bluetooth-compatible devices such as Indoor Trainers, Bike Computers, and more.

Battery life	Recording Activities: 38 h Standby: 80 days	Armband material	Polyester fiber, nylon, spandex	USD	79
Total Weight	19g	Optical Heart Rate Hardware	5 LED lights with 4 photodetectors	CAD	109
Unit Weight	9.7g	Battery capacity	55mAh	EUR	79
Dimensions	42.5 x 28.4 x 9.9mm	Waterproof grade	3 ATM	UPC	810,005,782,548
Band Circumference	7.09-12.6 inches	Temperature Ratings	Working temperature: -20°C ~ 50°C (68°F ~ 122°F)	EAN	0810005782548
Wearing Position	Arm	Charging	Standard magnetic USB charging cable Estimated charging time: 2 hours	Connects with	COROS / Peloton / Hammerhead Garmin / Wahoo + more
				Connectivity	Bluetooth
